

Canford Tailgate and Wallbox termination panels

- Unique 'Z' profile aluminium extrusion
- 2U high, up to 7 connectors - uses minimum rack space
- ▶ Connectors angled down significantly reduces fibre or cable bending stress
- ▶ Flat types for low level or bottom of rack termination
- Extremely rugged solid aluminium with integral bracing
- Standard and low profile lacing bar options
- ▶ Custom cut-outs, colour, screen-printing and engraving
- ▶ Available for ALL broadcast video and audio connectors including:
Canare, Lemo, WWFischer, Hirose JRC, MIL26/41, Apollo Pro, Opticon

SMPTE 304M and TRIAX CONNECTOR GUIDE TAILGATE and WALLBOX PANELS TERMINATION PANELS OUTSIDE BROADCAST BREAKOUT STAGE BOXES

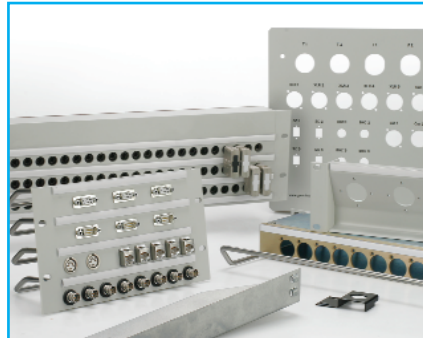

Standard and Custom termination panels

- Shallow 'Z' profile 2U extrusion to accommodate BNC and XLR connectors
- Flat types, 1U, 2U and 3U
- ▶ Fully loaded BNC HD, XLR and F-type termination panels
- ▶ Broadcast style data panels (Cat5e, Cat6, RS422, Ethercon, D-sub, USB, Firewire)
- Canford 'Universal' unpopulated panel kit (includes connector mounting screws)
- Half rack and custom widths
- ▶ Standard cranked lacing bars fitted, low profile option. Snap-on Designation strips
- Custom panel cut-outs
- 'Universal' panel assembly service - the most cost effective solution

Custom metalwork

- Termination panels
- Patch panels
- ▶ Tailgate panels
- ▶ Wallbox plates
- Any video, audio, data or power connector combination
- Fabricated metalwork
- ▶ Custom colours, designation strips, engraving, screen-printing

Outside broadcast breakout stageboxes

- Based on the robust Neutrik stagebox
- Canford manufactured to include:
latching XLRs on metal plates, runners on base, engraved numbers
- ▶ MIL26 and MIL41
- ▶ MIL-C-5015 - Apollo 25, Apollo 37
- Standard or custom wiring
- Single ended or feedthrough
- ▶ Fully compatible with other standard connectors
